- Sindhi (Fluent)

PROFILE

Frontend and JavaScript developer experienced in building responsive web applications using React.js, Next.js, HTML, CSS, and Tailwind CSS. Currently developing a smart home automation platform called Nova Control, which integrates ESP32 IoT devices with a web dashboard for real-time device control. Skilled in creating interactive UI components, responsive layouts, and modern web interfaces. Quick learner with hands-on experience in web technologies, APIs, and frontend development.

PROJECT EXPERIENCE

IRIS Software Solutions

Frontend Developer Intern

Worked as a frontend developer where I gained practical experience in React.js and Next.js Frontend development while working on real world web application concepts. I improved my understanding of conceptual programming component based architecture and frontend workflows. During this role I learned professional development practices teamwork and problem solving in a collaborative environment. This experience enhanced my technical adaptability and ability to quickly learn modern systems and technologies.

Nova Control - Smart Home Automation System

FullStack Developer

Built a full-stack smart home automation platform enabling real-time control of IoT devices through a web dashboard. Developed responsive frontend using React.js and Next.js. Integrated Firebase Realtime Database for device state management and connected ESP32 IoT devices with the web platform. Implemented real-time device control and voice commands using Web Speech API.

FREELANCE EXPERIENCE

FullStack Developer

Developed responsive websites and landing pages using React.js, JavaScript, HTML, and CSS, focusing on clean user interfaces and smooth user experience. Built modern UI components and interactive dashboards while ensuring efficient and maintainable frontend code. Optimized web layouts for mobile, tablet, and desktop devices to achieve consistent cross-device responsiveness. Also worked as user interface enhancements to deliver reliable and user-friendly web applications.
